- Conference (Period 6)

## Back To School Night 2021

“There are no  
problems, **only**  
**solutions.**”

- John Lennon

## Four Topics, 12 Minutes

- What can your student do to be successful?
- What am I going to do to help your student succeed?
- What can families do to help their student be successful?
- **General Questions?**

## **What Your Student Can Do?**

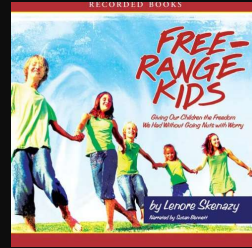

- Be in class on time, every day
- Check the calendar on my website
- Turn in all work on time and complete
- Study for every quiz
- Be positive, polite, and helpful
- Ask questions, participate in class
- Do the work themselves
- Embrace some level of struggle

## **What Will I Do?**

- Be in class every day
- Be prepared to teach and help
- Be available at lunch / after school
- Be available on Zoom (by appointment)
- Be available via email for assistance
- Make sure the lab is 100% functional
- Try my best to remember that students have other classes, other commitments, jobs, family situations, learning issues, and other issues outside class that can impact them

## What Can The Family Do?

- Check Aeries grades/assignments
- Visit my website/read assignment comments
- Contact me by email if anything is wrong
- Ask your student to teach/explain their work
- Assist them if you know how to code
- Tutors can help, but the student must work
- Be a consultant, don't do their work

## Questions, Comments, Thoughts?
